Charity gift catalog 2009

★ Give the gift of sight ★

Welcome to the Present Vision Catalog

What is Present Vision?

The BCVI gift list is a great opportunity to buy the perfect present, one that will forever change the life of a Belizean who is blind or visually impaired!

How it works

For each gift you order, we'll send you a certificate in recognition of the life-altering donation you have made. As this is the season for giving, we can also personalize the certificate should you like to make a donation on someone else's behalf.

How to order

Just fill in the order form and email it to us at csdairs@gmail.com. Then send your check to the BCVI Foundation. You will receive your certificate electronically.

The BCVI Foundation has been established as a 501(c)(3) organization! Now you can make your contributions to the Foundation by sending your check to the address below!

**The BCVI Foundation

122 S. Michigan Avenue, Suite 1720
Chicago, Illinois 60603-6145**

Cataract Surgery

A cataract operation is life changing! It takes very little time and can fully restore sight. With this gift, you are restoring more than just vision, you are restoring independence!

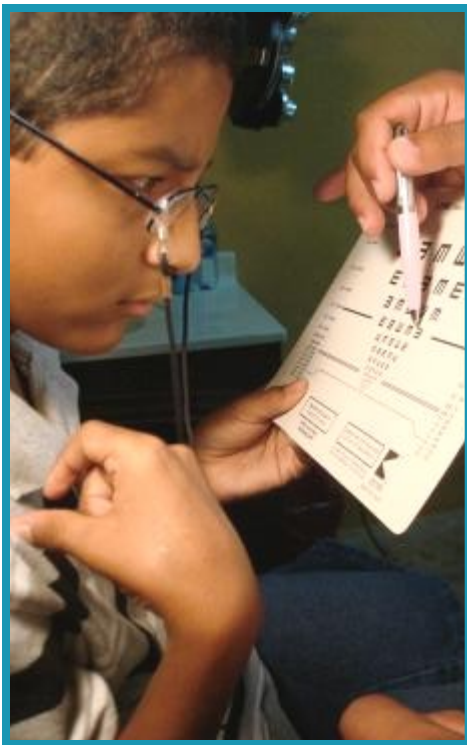

Gift of Sight

The Gift of Sight will provide help to all Belizeans accessing services from BCVI. Your gift will fund eye care, educational and rehabilitative services.

Glasses

Glasses are one of the easiest ways to change someone's life. A pair of glasses can open up a whole new world to a child having trouble in school, or give improved sight to a woman who supports her family by sewing clothes. The cost of this gift also includes eye exams both at BCVI clinics and those conducted in the poorest and most isolated areas of Belize.

Chicago, Illinois 60603-6145

White Canes

White canes help people who are blind or visually impaired safely move around their homes and communities, increasing their independence. Now **you** can help them gain more freedom!

Brailers

US\$100

Education is key and for children who are blind or visually impaired, Braille Machines are the key to an education. Braille allows our clients to read and write, creating a smooth transition into mainstream educational facilities.
